

## DISCUSSIONS

To keep a note of all your discussions for your classes, it is convenient to track them in a single space. You will find discussions for *all* registered classes here, and this space is different from the class-specific **Discussions** section.

Sort these discussions by flags to increase organization.

To view each discussion in a separate space, select 'View Previous Comments'.

NOTE: To create a new discussion, you must enter the target class and create one within its own **Discussions** section.

NOTE: 'Requires My Attention' is a flag that is set by students when they feel it teachers' involvement is necessary.
